

June 2020

Dear Applicant:

Thank you for expressing interest in the Pediatric Emergency Medicine Fellowship Program at the Children's Hospital at Montefiore (CHAM) and Albert Einstein College of Medicine. Our fellowship is fully accredited by the Residency Review Committee for Pediatrics. As in the recent past, our fellowship will be using ERAS for the application. Please see our brochure for the required documents and other information.

This continues to be an exciting time for our service. We are currently one of the busiest Pediatric Emergency Departments in our region with an annual census of about 55,000. We have a diverse group of 17 faculty and 7 PNP's in our Division and continue to recruit new staff.

Our fellowship curriculum is continually being updated to conform to the ACGME's NAS (Next Accreditation System). Currently, our fellowship program is fully accredited without any citations. Additionally, we have added a variety of new components including a structured ultrasound curriculum.

In addition, the Department of Pediatrics has successfully recruited renowned specialists with expertise in both medical and surgical care of children. Thus, CHAM can offer our patients access to the highest quality care and services available anywhere. All subspecialties are well developed in both breadth and depth, and each area includes several faculty members with a variety of clinical and research interests.

Please review the enclosed material or check out the hospital's website, [cham.org](http://cham.org). If there are any questions, please feel free to contact our administrative supervisor, JoAnne Walters (718-920-5312, email [jowalters@montefiore.org](mailto:jowalters@montefiore.org)) or myself (718-920-5312, email [dfein@montefiore.org](mailto:dfein@montefiore.org)).

Sincerely,

Daniel Fein, MD  
Associate Professor of Pediatrics  
Fellowship Director, Pediatric Emergency Medicine  
Albert Einstein College of Medicine  
Children's Hospital at Montefiore

# PEDIATRIC EMERGENCY MEDICINE FELLOWSHIP PROGRAM

Children's Hospital at Montefiore  
Albert Einstein College of Medicine

## INTRODUCTION

The fellowship in Pediatric Emergency Medicine is offered by the Department of Pediatrics of the Albert Einstein College of Medicine and its major teaching affiliated hospital, **Children's Hospital at Montefiore** (CHAM). Montefiore Medical Center (MMC) is a quaternary care center and the home of CHAM. Montefiore is also a site of Einstein's Emergency Medicine Residency program, a primary training center for Emergency Medicine in New York City. The hospitals are located in the north Bronx, near the Albert Einstein College of Medicine, and within easy commuting of Connecticut, Westchester County, Queens, Manhattan, and Northern New Jersey.

## NEW YORK LIVING

The Children's Hospital at Montefiore is located in the north Bronx, easily accessible to Manhattan by car or by public transportation. There are excellent leisure time activities just a short distance away: the world-famous Bronx Zoo, the New York Botanical Gardens and, of course, Yankee Stadium. For golfers, the Van Cortland Park course is only a block away from Montefiore, while tennis, horseback riding and sailing off City Island are only a few minutes away. For the culturally inclined, the nearby Lehman College Center for the Performing Arts offers opera, concerts, theater and dance. The Falk Athletic Center on the Einstein Campus is available to the Department's residents and fellows. The gym features an Olympic-sized indoor swimming pool, as well as a running track, a weight room, and regulation basketball and racquetball courts.

Beyond the program's immediate vicinity, but within an hour or two, are many miles of beach along the shores of Long Island and New Jersey. Skiing and other winter sports are convenient to the Bronx, just upstate in the Catskills and Adirondacks, or west of the city in New Jersey and Pennsylvania. New England's ski slopes are a bit further away, but certainly in easy reach for weekends.

Only 30 minutes away by subway, bus or car is Manhattan, with its theaters, museums, concerts, sports activities, historical landmarks, restaurants, shopping, night spots, and an endless variety of other attractions.

## CHILDREN'S HOSPITAL AT MONTEFIORE

The Children's Hospital at Montefiore is a 132-bed hospital which houses the majority of the pediatric inpatient and outpatient facilities and programs. In addition, this hospital is

designed to be the hub of a substantial, highly integrated network of primary and specialty services for children throughout the Bronx and lower Westchester. CHAM, opened in October 2001, is a 10-story facility attached to the existing MMC complex.

The Children's Hospital, housed in a stand-alone tower connected to the main hospital's Moses Campus, is a large medical-surgical facility providing comprehensive pediatric care. CHAM functions as the primary residency-training site of the AECOM/MMC program in pediatrics. The Moses Campus, a 745-bed full-service teaching hospital is the largest component of Montefiore's many facilities. The CHAM tower houses inpatient units which include General Pediatrics, Hematology/Oncology, Adolescent Medicine, as well as teams that cohort Cardiology, Gastroenterology, Surgical Subspecialties, Renal, and Transplant patients (Bone Marrow/Renal/ Liver). There is a 35-bed Pediatric Critical Care Unit, providing state of the art care to any critically ill child.

Integral to the care of children hospitalized on any of the Center's inpatient units is a wide range of psychosocial and educational support services, including a school and an extensive Child Life Program. In addition, there are Child Protection Services and a Lead Screening Program. The Children's Hospital also provides a full array of pediatric subspecialty programs, both medical and surgical, offering care to children on the inpatient units as well as in a variety of ambulatory settings. Pediatric laboratory services, with sophisticated microchemical technology, and a full complement of pediatric imaging facilities also contribute to the broad diagnostic and therapeutic capabilities available for the care of our patients and the education of our house officers.

## THE PEDIATRIC EMERGENCY DEPARTMENT

Opened in September 2000, the Pediatric Emergency Department (PED) is a large, state-of-the-art emergency facility dedicated to children. From entrance to exit, the PED is uniquely designed to address the needs of ill and injured children. Over 10,000 square feet of clinical area is housed in a bright area, decorated with a “space” theme that sets a calm mood a child of any age can relate to. There are many separate treatment areas, which assure a family’s privacy, and all are equipped with the latest in diagnostic and therapeutic monitoring equipment, so families do not have to be moved from room to room during the course of their child’s treatment. The overhead lights can be dimmed for child comfort and there are backlit ceiling panels of galaxies for children to imagine drifting off into space and away from their pain and fear. There are many other features to make a difficult experience as comfortable as possible.

## THE CHILDREN’S EMERGENCY SERVICE

The Children’s Emergency Service at the Children’s Hospital at Montefiore is responsible for approximately 55,000 visits per year of patients under the age of 21 years. As the only quaternary care center in the Bronx, the Children’s Emergency Service cares for children with high acuity illness and is responsible for most of the admissions to

the inpatient units. Patient care is provided by members of the pediatric and emergency medicine house staff under the supervision of primarily full-time Pediatric Emergency Medicine (PEM) faculty.

The PEM faculty is one of the larger groups of fellowship-trained and PEM sub-board-certified physicians on the East Coast. At least two of the Attending PEM staff is present in the Emergency Department 24-hours a day, 7-days a week. The mix of PEM Attendings, PEM Fellows and Pediatric Attendings together with pediatric nurse practitioners, child life specialists, pediatric residents, emergency medicine residents, family medicine residents, orthopedic residents and third- and fourth-year medical students gives the Pediatric Emergency Department a rich academic atmosphere.

## FELLOWSHIP GOALS

The goals of the fellowship are to:

1. Train fellows who are clinically proficient in the diagnosis and management of medical, surgical and behavioral emergencies
2. Assist fellows in developing research skills in hypotheses formulation, study design, project execution and implementation, data analysis, abstract presentation and manuscript preparation to become a productive investigator
3. Educate fellows as they attain skills to become teachers of emergency pediatrics to medical students, residents, subspecialty consultants and other health care providers
4. Provide the skill set necessary for the administration of all aspects of an academic emergency department
5. Guide the development of skills necessary to a) identify safety issues and system inefficiencies and b) facilitate the creation and institution of quality improvement, performance improvement and patient safety activities to address issues identified
6. Support fellows academically, educationally and emotionally so they can reach their maximal potential
7. Coach fellows in the advancement of their interpersonal and communication skills

## CLINICAL EXPERIENCE

The clinical experience for the fellow is based on exposure to a wide variety of patient complaints. At CHAM, the fellow will not only take care of the basic diagnoses seen in pediatric emergency medicine, but there is ample opportunity for emergent care of subspecialty patients from all disciplines. The average admission rate over 10% attests to the high acuity of patients seen. The PEM staff

assumes responsibility for all children seen in the Pediatric ED, regardless of the nature of the chief complaint. Therefore, the fellow will have the opportunity to manage an extensive array of medical and surgical problems. This experience will provide a breadth of learning and a depth of knowledge necessary to grow into the role of a Pediatric Emergency Medicine Attending Physician.

## REQUIREMENTS FOR FELLOWSHIP

The fellowship program accepts candidates who have their primary training in pediatrics or emergency medicine. If the primary training is in pediatrics, the Sub-board for Pediatric Emergency Medicine Certification requires three years of fellowship training. The academic year is based on 13 cycles, each containing 4 weeks. Sample schedules for fellows are as follows:

### First Year (Peds)

Pediatric ED: 5  
 Research: 2 ½  
 Adult ED: 1  
 Pediatric ICU: 1  
 Anesthesia: 1  
 Toxicology: 1  
 Trauma: 1  
 Child Protection: ½

### Second Year (Peds)

Pediatric ED: 6  
 Research: 3 ½  
 Adult ED: 1  
 Ultrasound: ½  
 Peds Radiology: ½  
 Obstetrics: ½  
 EMS: ½  
 Child Protection: ½

### Third Year (Peds)

Pediatric ED: 3  
 Research: 7  
 Adult ED: 1  
 Ultrasound: 1  
 Free Elective: 1

### First Year (EM)

Pediatric ED: 6 ½  
 Research: 1  
 Pediatric ICU: 1  
 Pediatric Clinics: 1  
 Nursery/Delivery: 1  
 Inpatient Peds: 1  
 Anesthesia: 1  
 Child Protection: ½

### Second Year (EM)

Pediatric ED: 6 ½  
 Research: 1  
 Pediatric ICU: 1  
 Pediatric Clinics: 1  
 Elective: 2  
 Child Protection: ½  
 Peds Radiology: ½  
 Peds Sono: ½

## RESEARCH PROGRAM

Our PEM Fellowship Program considers the research experience to be an essential part of the fellow curriculum. Pediatric trained fellows conduct a research project developed by the fellow under faculty supervision as well as a Scholarship Oversight Committee. All fellows complete a mentored Quality Improvement project. Numerous resources of the Department of Pediatrics as well as the nearby medical school are available to the fellow. In addition, there are a variety of formal conferences on research methodology. The fellow also participates in a 3-year longitudinal Research Seminar series given by the Department of Pediatrics for all pediatric fellows.

## TEACHING PROGRAM

The fellows play in an integral role in the training of resident and medical students. Fellows have increasing responsibility for medical student and resident supervision during their clinical role in the emergency department. Fellows also maintain an active role leading our teaching workshops for medical students and residents. A special weekly Fellows' Conference is designed to address issues and topics that relate directly to the education of the PEM fellow. These conferences include not just lectures specially geared towards the fellow's level, but also include topics related to administration of the ED, legal issues, ethical issues, and other academic pursuits. Fellows are not just passive learners in these conferences as they will lead case conferences, give lectures and journal clubs and provide monthly updates on what's new in the world of PEM in our weekly Fellows' Conference.

## CERTIFICATION

By the completion of the fellowship, all fellows should be certified in Pediatric Advanced Life Support and Advanced Trauma Life Support. Our fellowship is kept up-to-date regarding the qualifications needed for future accreditation by the Residency Review Committee. The fellows will also have fulfilled the requirements needed to sit for the Pediatric Emergency Medicine Subspecialty Board Examination.

## PREREQUISITES

At least three years of clinical training in a Pediatric Residency Program or four years of clinical training in an Emergency Medicine Residency Program approved by the Accreditation Council for Graduate Medical Education is required.

## APPLICATION PROCESS

Our fellowship program uses the uniform application and associated services provided by ERAS® (Electronic Residency Application Service). An online application is required of all applicants and letters of reference will similarly be processed by ERAS. Applicants can access information on ERAS at [www.aamc.org/eras](http://www.aamc.org/eras). A more comprehensive description is detailed in the April issue of *Pediatric Emergency Care*.

The following documents are required for applications to be complete:

- Common Application Form
- Personal Goals Statement
- Three (3) Letters of Reference
- NBME/NBOME Transcript
- ECFMG Status Report
- Photograph
- Dean's Letter/MSPE

Please submit the application and other documents as soon as possible. The deadline for the common application form is August 15.

## THE MATCH

This fellowship program participates in the Pediatric Emergency Medicine Fellowship Matching Program. Accepted candidates will be notified in December, as agreed to by all fellowship programs in Pediatric Emergency Medicine.

## PEDIATRIC EMERGENCY SERVICE (2020)

Children's Hospital at Montefiore | Albert Einstein College of Medicine

### Amy Abraham, MD

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship training: Methodist*  
Interests: pain management

### Myrian Alea, MD

Director of Medical Operations  
Attending Physician  
Assistant Professor of Pediatrics  
Interests: Administration

### Paul Chambers, MD

Quality Assurance Coordinator  
Risk Management Coordinator  
Attending Physician  
Assistant Professor of Pediatrics  
Interests: asthma, quality assurance

### Daniel Fein, MD

Associate Director, Pediatric Emergency Services  
Director, Fellowship Program  
Attending Physician  
Associate Professor of Pediatrics  
*Fellowship Training: Children's Hospital at Montefiore/Albert Einstein College of Medicine*  
Interests: sedation, pain management, education

### Michael Gombos, MD

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship training: Schneider's Children's Hospital/Long Island Jewish Medical Center/*  
Interests: otitis media, occult bacteremia, RSI

### Jennifer Grossman MD

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship Training: Maimonides*  
Interests: Resident education, appendicitis, procedural training

### Waseem Hafeez, MD\* (per diem)

Attending Physician  
Associate Professor (Emeritus) of Pediatrics  
*Interests: Simulation, RSI*

### Tiffany Hamil, PNP

Pediatric Nurse Practitioner

### Hye Won Hong, PNP

Pediatric Nurse Practitioner

### Marianne Hughes, PNP

Pediatric Nurse Practitioner  
Follow-up Program

### Hnin Khine, MD

Attending Physician  
Interim Chief, Pediatric Emergency Medicine  
Director, Pediatric Emergency Services  
Associate Professor of Pediatrics  
*Fellowship Training: Children's Hospital of Pittsburgh*  
Interests: trauma, evidence-based medicine, pain management

### Diana King, MD

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship training: Montefiore Medical Center – critical care*  
Interests: education, ethics, critical care issues

### Richard Levine, ANP, PNP

Pediatric Nurse Practitioner  
Follow-up Program

### Lourdes Maisonet, MD

Attending Physician  
Assistant Professor of Pediatrics  
Interests: Health disparities in emergency care

### Charles Mackin MD

Attending Physician  
Instructor, Dept. of Pediatrics

### Gonzalo Manzano, MD

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship Training: Jacobi Medical Center*  
Interests: Prehospital Medicine, Ultrasound, Trauma

**Monisha Parikh MD**

Attending Physician  
Instructor, Department of Pediatrics

**Ruby Rivera, MD**

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship Training: Montefiore Medical Center/  
Albert Einstein College of Medicine*  
Interests: asthma, psychiatric issues, toxicology,  
education

**Marlene Rivera, MD**

Attending Physician  
Assistant Professor of Pediatrics

**Zaira Rivera-Diaz, MD**

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship Training: Maimonides Medical Center*  
Interests: medical student education, ultrasound,  
endocrine emergencies, multicultural approach  
to patient care

**Kathleen Ronca, ANP, PNP**

Pediatric Nurse Practitioner  
Follow-up Program

**Alan Schultz**

Pediatric Nurse Practitioner

**Victoria Shulman, MD**

Attending Physician  
Assistant Clinical Professor of Pediatrics  
Interests: resident education, infectious diseases

**Young Jin Sue, MD**

Attending Physician  
Associate Professor of Pediatrics  
*Fellowship Training: Children's Hospital, Boston*  
Interests: toxicology, RSI, sedation

**Joy Tun, MD**

Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship Training: Bronx Municipal Hospital  
Center*  
Interests: trauma, toxicology

**Sheri-Anne Wynter MD**

Director of Simulation, Division of Pediatric  
Emergency Medicine  
Attending Physician  
Assistant Professor of Pediatrics  
*Fellowship Training: NYU*  
Interest: Simulation, Sepsis, Asthma

**Sarah Barrett Wren, PNP**

Pediatric Nurse Practitioner  
Follow-up Program

**PEDIATRIC EMERGENCY MEDICINE FELLOWS (2020)****Third Year:****Natasha Nayak, MD**

Residency: Jacobi Medical Center (Pediatrics)

**Second Year:****Mishuka Adhikary, MD**

Residency: St. Barnabas (Pediatrics)

**Rachel Levene, MD**

Residency: SUNY Downstate (Pediatrics)

**First Year:****Molly Moseley, DO**

Residency: Jacobi Medical Center/Montefiore Medical Center (EM)

## Abstract Presentations

1. Munjal I, Gialanella P, Goss C, McKittrick JC, **Avner JR**, Litman N, Levi MH. Evaluation of the 3M Rapid Detection Test for Respiratory Syncytial Virus (RSV) during the Early Stages of the 2009 RSV Season. Presented at the American Society for Microbiology Annual Meeting, San Diego, CA, May 2010.
2. **Brady K, Khine H, Avner JR.** Perception and Attitude of Caregivers Toward Pain and Anxiety Associated with Pediatric Vaccine Injection. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2010.
3. **Shah V.** Correlation of lung ultrasound findings in infants with bronchiolitis and the Respiratory Distress Assessment Instrument (RDAI) score. Presented at the 6th WINFOCUS World Congress on ultrasound in Emergency and Critical Care. Rome, Italy, October 2010
4. **Shah V.** Prospective Evaluation of Point-of-care Ultrasound for the Detection of Pleural Effusion and Assisted Thoracentesis in Children Presenting to the Emergency. Presented at the 6th WINFOCUS World Congress on ultrasound in Emergency and Critical Care. Rome, Italy, October 2010
5. **Shah V.** Prospective Application of the Bedside Lung Ultrasound in Emergency (BLUE) Protocol for Rapid Emergency Department Triage and Management During The 2009 H1NI Epidemic. Presented at the 6th WINFOCUS World Congress on ultrasound in Emergency and Critical Care. Rome, Italy, October 2010
6. Fein D, **Avner JR**, Auerbach M, et. al. Patterns of Analgesia Use by Pediatric Interns for Lumbar Puncture in Children Less Than One Year of Age. Presented at the 11th Annual International Meeting on Simulation in Healthcare (IMSH), New Orleans, Louisiana, January 2011
7. **Fein D, Avner JR**, Auerbach M, et. al. Analgesia Use for Infant Lumbar Puncture by Interns after an Educational Intervention. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2011
8. **Ng L**, Taragin B, **Avner JR**, Ushay M, Nunez D. Does the IVC diameter correlate with central venous pressure (CVP) in the assessment of intravascular volume in children? Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2011 and the Pediatric Academic Societies Meeting, Denver, CO, May 2011
9. **Fein DM**, Racine AD. Efficacy of primary care clinics offering increased influenza vaccine delivery. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2011 and the Pediatric Academic Societies Meeting, Denver, CO, May 2011

10. **Shah VP**, Tsung JW. Point-of-Care lung ultrasound (Lung US) findings in children with bronchiolitis and correlation with the respiratory distress assessment instrument (RDAI) Score. Presented at the Pediatric Academic Societies Meeting, Denver, CO, May 2011
11. Canares T, **Chambers P**, Scharbach K. The Etiology of Respiratory Infection and Severity of Illness. Presented at the Pediatric Academic Societies Meeting, Denver, CO, May 2011
12. Auerbach M, Chang TP, **Fein D**, Gerard JM, Scherzer DJ, Reid J, Rabe G, Pusic MV and Kessler DO. Simulator Based Just-In-Time Competency Assessment to Predict Clinical Infant Lumbar Puncture Success . Presented at the 2011 AAP national conference.
13. Kessler D, **Fein D**, Agrawal D, Reid J, Rocker J, Pusic M, Haubner L, Auerbach M. Impact of a Simulation Based Just in Time Refresher Training for Interns on Their Clinical Success Rate with Infant Lumbar Puncture Abstract presented as a platform presentation at the 2011 International Pediatric Simulation Symposia and Workshop Conference, Toulouse, France
14. Auerbach M, Chang T, **Fein D**, Gerard J, Mehta R, Scherzer DJ, Reid J, Rabe G, Pusic M, Kessler D. Simulation Based Competency Assessment to Predict Clinical Infant Lumbar Puncture Success. Abstract presented as a platform presentation at the 2011 International Pediatric Simulation Symposia and Workshop Conference, Toulouse, France
15. **Khine H**, Goldman D, Ochoa K, **Avner JR**. Comparison of the management of Fever in Children aged 3-36 months by PEM and GEM physicians. Presented at the Pediatric Academic Societies Meeting, Boston, MA. May 2012
16. **Rabiner J, Khine H, Avner JR**, Tsung JW. Accuracy of Point-of-Care Ultrasound for Diagnosis of Elbow Fractures in Children. Presented at the Pediatric Academic Societies Meeting, Boston, MA. May 2012 (*Dr. Rabiner received the APA Fellow Research Award for this presentation*) and presented at the Society for Emergency Medicine National Meeting, Chicago, IL, May 2012.
17. Friedman L, **Rabiner JE**, Tsung JW. Accuracy of Point-of-Care Ultrasound (PoCUS) by Novice Pediatric Emergency Sonologists in the Diagnosis of Skull Fractures. Presented at the Pediatric Academic Societies Meeting, Boston, MA. May 2012
18. Chang TP, Kessler D, Auerbach M, Scherzer DJ, McAninch B, Jackson J, Zaveri P, Seelbach E, Mehta R, Ching K, van Ittersum W, Dobson J, **Fein D**, Strother C, Rocker J, Pusic M. Script Concordance Testing and Lumbar Puncture Practice Variation among Trainees and Physicians. Presented at the Pediatric Academic Societies Meeting, Boston, MA. May 2012
19. **Rabiner, JE**, Auerbach, M, **Avner, JR**, Daswani, D, **Khine, H**. Comparison of GlideScope Videolaryngoscopy to Miller Direct Laryngoscopy for Intubation of a Pediatric Simulator by Novice Physicians. Presented at the Pediatric Academic Societies Meeting, Boston, MA. May 2012 and at the Society for Emergency Medicine National Meeting, Chicago, IL, May 2012.
20. **Rabiner, JE, Khine, H, Avner, JR**, Tsung, JW. Ultrasound Findings of the Elbow Posterior Fat Pad in Children with Radial Head Subluxation. Presented at the Pediatric Academic Societies Meeting, Boston, MA. May 2012 and at the Society for Emergency Medicine National Meeting, Chicago, IL, May 2012.
21. Freundlich C, Kavanagh P, **Khine H**. The utility of chest radiographs in the evaluation of febrile children with sickle cell disease. Presented at the Pediatric Academic Societies Meeting, Boston, MA. May 2012
22. Auerbach M, Chang T, Mehta R, Reid J, Lemke D, Gerard J, **Fein D**, Zaveri P, Kessler D. Does "Just in Time" Simulation Based Competency Assessment Predict Clinical Infant Lumbar Puncture Success. Abstract presented as a poster at the 2012 International Meeting on Simulation and Healthcare

23. Delany K, Pankow A, **Rabiner J**. Analgesia for Appendicitis in Children in Pediatric and General Emergency Departments. Accepted for presentation at the Pediatric Academic Societies Meeting, Washington, DC, May 2013.
24. **Tokarski J, Rabiner J**. Observation after Racemic Epinephrine for Croup in the Pediatric Emergency Department. Accepted for presentation at the Pediatric Academic Societies Meeting, Washington, DC, May 2013.
25. **Fein D, Avner JR**, Auerbach M, et. al. Analgesia Use for Infant Lumbar Puncture by Interns after an Educational Intervention. Accepted for presentation at the Pediatric Academic Societies Meeting, Washington, DC, May 2013.
26. Kessler D, Chang T, Mehta R, Agrawal D, Zaveri P, Grossman D, Seelbach EB, Lavoie M, Gerard J, **Fein DM**, Trainor J, Lee MO, Srivastava G, Iyer S, White ML, McQueen A, Auerbach M. Does A Just- in- Time Simulation Based Competency Assessment Improve Trainee Clinical Success With Their first Infant Lumbar Puncture. Abstract presented as a poster at the 2013 International Pediatric Simulation Society Meeting in April 2013 and at 2013 Pediatric Academic Societies Conference.
27. White ML, Burns R, Zaveri PP, McAninch B, Auerbach M, Seelbach B, **Fein DM**, Jang J, Mehta R, Chang T, Kessler D. Infant Lumbar Punctures Success Rates Reported by Upper Level Residents Abstract presented as a poster at the 2014 International Meeting on Simulation and Healthcare
28. **Wren SB**, Agcanas N, Goldman DL, **Khine H**. Pattern of Presentations Among Female Adolescent patients with Gonorrhea and Chlamydia Infections in the Pediatric Emergency Department. Presented at the ESPR Annual Meeting, Philadelphia, PA March 2014.
29. **Altberg G**, Koons K, Silver E, **Khine H, Avner JR**: Validation of a Risk Stratification Strategy to Identify Serious Bacterial Illness in Febrile Patients with Sickle Cell Disease Who Present to the ED in the Post-PCV7 Era. Poster presentation to the National Meeting of the Pediatric Academic Societies, Vancouver, BC, May 2014.
30. **Fein D**, Hartley R, Choi S, **Chambers P**: A Quality Improvement Project to Improve Pain Management for Patients With Extremity Pain in the Pediatric ED. Platform presentation to the ESPR Annual Meeting and National Meeting of the Pediatric Academic Societies, Vancouver, BC, May 2014.
31. Kessler DO, Auerbach M, **Fein DM**, Chang TP, Lee M, Mehta R, Gerard JM, Trainor J, Pusic M. Implementation and Impact of a Just-in-Time Assessment to Determine Intern Readiness to Perform Their First Infant Lumbar Puncture. Abstract presented as platform presentations at the at 2014 AAP NCE
32. **Daswani DD, Shah VP, Avner JR**, Manwani DG, Kurian J, **Rabiner JE**. Accuracy of Point-of-Care Lung Ultrasound for Diagnosis of Acute Chest Syndrome in Pediatric Patients with Sickle Cell Disease and Fever. Presented at the Eastern Society for Pediatric Research meeting in Philadelphia, PA March 2015 and the Pediatric Academic Societies Meeting, San Deigo, CA. April 2015 (Dr. Daswani received the APA Fellow Research Award for this presentation).
33. Bailey K, **Roberts S**, Gensure R. A Case of Vitamin D Toxicity in a Child from an Over-The-Counter Multivitamin. Presented at the Lower New York- AACE Annual Meeting, New York, NY Oct 2015.
34. Cain M, **Wren S**, Goldman D, **Khine H**: The Effectiveness of Text Messaging Compared With Phone Communication in Contacting Adolescent Patients with Sexually Transmitted Infection Test Results from the Pediatric Emergency Department. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2016
35. **Tokarski J, Avner JR, Rabiner J**: Can Point-of-Care Elbow Ultrasonography Reduce the Use of Radiography for Elbow Trauma in Children? Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2016 and the Pediatric Academic Societies Meeting, Baltimore, MD, May 2016.

36. Capua M, Shoag J, Golfeiz D, **Avner JR, Rabiner J**: Validation of Risk Stratification Criteria to Identify Febrile Neonates at Low Risk of Serious Bacterial Infection. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2016 and the Pediatric Academic Societies Meeting, Baltimore, MD, May 2016
37. **Nadler A**, Avner D, **Khine H, Avner JR, Fein D**: Clinical Burden of Psychiatric Visits on the Pediatric Emergency Department. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2016 and the Pediatric Academic Societies Meeting, Baltimore, MD, May 2016
38. Proper C, **Wren S**, Goldman D, Alderman E, **Khine H**: Risk Factors for Sexually Transmitted Infection in Patients Seeking Emergency Psychiatric Evaluation in the Pediatric Emergency Department. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2016 and the Pediatric Academic Societies Meeting, Baltimore, MD, May 2016.
39. Vo A, Goldman D, **Khine H**: Management of Intussusception: Reduction Type and Recurrence Rates. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2016 and the Pediatric Academic Societies Meeting, Baltimore, MD, May 2016.
40. Cassel-Choudhury G, Katyal C, **Rivera R**, Beal J: Protocol Driven Management of Convulsive Status Epilepticus in a Single Center Children's Hospital. Presented at the Eastern Society for Pediatric Research Annual Meeting, Philadelphia, PA, March 2016 and the Pediatric Academic Societies Meeting, Baltimore, MD, May 2016.
41. **Nadler A**, Avner D, **Khine H, Avner JR, Fein DM**. The Clinical Burden of Psychiatric Visits on the Pediatric Emergency Department. *Presented as platform presentation at 2016 Eastern Society for Pediatric Research Conference and as a poster at the 2016 Pediatric Academic Societies Conference*
42. Prendaj E, **Fein DM**, Dadlez N, Thompson J, Tomer G. Improving Time to Antibiotics in Short Bowel Syndrome Patients with Central Line and Fever in the Emergency Department. *Presented as poster presentation at 2016 World Congress of Pediatric Gastroenterology, Hepatology and Nutrition and 2017 Digestive Disease Week Conference*
43. Kessler D, Auerbach M, **Fein DM**, Chang TP Infant Lumbar Puncture iPad App *Presented at Video Game Arcade at the 2017 International Meeting on Simulation in Healthcare*
44. Sokoloff W, Simuro N, Olson P, **Fein DM**. Filling rates and accessibility of Self-Injected Epinephrine Prescribed from a Pediatric Emergency Department. *Presented as platform presentation at 2017 Eastern Society for Pediatric Research Conference and as a poster at the 2017 Pediatric Academic Societies Conference*
45. Fawcett KJ, **Fein DM**, McNamara CA, Ching K, Harwayne-Gidansky I. Mixed-Methods Analysis: Reasons for Head CT in Low and Intermediate PECARN Risk Group. *Presented as poster presentations at 2018 Eastern Society for Pediatric Research Conference and 2018 Pediatric Academic Societies Conference*
46. McKee RS, Schnadower D, Tarr PI, Desai N, Lane R, Bregmann K, Kaplan R, Hariharan S, Cruz A, Cohen DM, Dixon A, Finkelstein Y, Hickey R, Rominger A, Powell EC, Poonai N, Michelson KA, Beer D, Pruitt CM, Yen K, Bitzan M, Plint AC, Meckler G, Bradin S, Abramo TJ, Gouin S, Kam A, Balamuth F, Hunley TE, Schuh A, Kanegay JT, Jones NE, Meltzer JA, Avva U, Ramgopal S, **Fein DM**, Louie J, Cohen A, Freedman SB on behalf of PERC and PEM CRC. Practice Patterns and Outcomes of Children Infected with Verocytotoxin-producing *Escherichia Coli* (VTEC) in Pediatric Emergency Departments in North America. *Presented as a platform presentation at 2018 Pediatric Academic Societies Conference and oral presentation at the International VTEC Symposium in Florence.*

47. Edusi G, Germain E, Sinnet M, Rudnick E, Khine H, **Fein DM**. Impact of and Emergency Medicine Pediatric Pharmacist: Tools and Measures. *Presented as a poster at the 2018 Pediatric Pharmacy Advocacy Group Meeting*
48. Kou M, Khanna K, Jamal N, Baghdassarian A, Carney M, Langhan M, **Fein DM**, Kim I, Rose J, Zuckerbraun N, Roskind CG. Guiding fellows to practice independently: current trends in pediatric emergency medicine fellow supervision. *Presented as a poster presentation at 2019 Pediatric Academic Societies and Society of Academic Emergency Medicine conferences*
49. **Nemetski SM, Goss D, Khine H, Fein DM**. Virtual Reality as Anxiolysis for Children Undergoing Laceration Repair in the Pediatric Emergency Room: A Pilot Study. *Presented as a platform presentation at the 2019 Eastern Society for Pediatric Research Conference and as a poster presentation at 2019 Pediatric Academic Societies Conference*
50. Khan M, Rosenberg M, **Fein DM**, Quezada X, Reingold R.... Meltzer J. Internationally-Acquired Severe Systemic Infections in Pediatric Travelers. *Presented as a poster presentation at 2019 Pediatric Academic Societies Conference*
51. **Rizvi MB**, Friedman BW, **Fein DM**, **Khine H**. The Impact of Scribes in an Academic Pediatric Emergency Department *Accepted as poster presentation at 2020 Pediatric Academic Societies Conference (\*Conference cancelled due to COVID-19)*
52. Schwartz L, Ye G, Morrone K, **Fein DM**. Performance of a Clinical Screening Tool in Febrile Children with Sickle Cell Disease of Different Ages. *Accepted as poster presentation at 2020 Pediatric Academic Societies Conference (\*Conference cancelled due to COVID-19)*
53. **Rizvi M, Khine H**, Silver E, **Sellinger C**. Modified DIVA score: A Modified Score for Predicting Difficult Access in an Urban Pediatric ED *Accepted as poster presentation at 2020 Pediatric Academic Societies Conference (\*Conference cancelled due to COVID-19)*
54. **Khine H, Wren SB, Tun J**, Silver E, Goldman DL. Fitz-Hugh-Curtis in Adolescent Females: A Clinical Decision Rule. *Accepted as poster presentation at 2020 Pediatric Academic Societies Conference (\*Conference cancelled due to COVID-19)*

## Awards & Honors (2012–2020)

**Dr. Jeffrey R. Avner** received the Harry Gordon Award for outstanding clinical teaching of medical students at the Albert Einstein College of Medicine commencement ceremony, 2012.

**Dr. Joni Rabiner** was awarded the APA Fellow Research Award at the Pediatric Academic Societies Meeting (2012) for her research presentation entitled: Accuracy of Point-of-Care Ultrasound for Diagnosis of Elbow Fractures in Children.

**Dr. Joni Rabiner** was awarded the “Golden Probe Award” at the 8<sup>th</sup> Annual WINFOCUS World Conference (Barcelona, October 2012) for her research on “Accuracy of point-of-care ultrasound for diagnosis of elbow fractures in children”.

**Dr. Daniel Fein** was awarded the “Outstanding Housestaff Award” at the Resident and Alumni Dinner of Montefiore Medical Center, March 2013.

**Dr. Hnin Khine** received the William Obrinsky Award from the Department of Pediatrics for excellence in medical student teaching, June 2013.

**Dr. Dina Daswani** received 1st place in the Evidence Based Medicine Competition for her presentation on Point of Care Ultrasound in the Pediatric ED for the Diagnosis of Pneumonia. May 2014.

**Marianne Hughes PNP**, received Montefiore’s Advance Practice Nurse of the Year award. May 2014.

**Dr. Dina Daswani** was awarded Society of Pediatric Research Richard D. Rowe Award in Clinical Research 2015 awarded at the Pediatric Academic Societies Meeting (2015) for her research presentation entitled: Accuracy of Point-of-Care Lung Ultrasound for Diagnosis of Acute Chest Syndrome in Pediatric Patients with Sickle Cell Disease and Fever

**Dr. Daniel Fein** was awarded the Lewis M. Fraad award for excellence in resident teaching from the Department of Pediatrics in 2017

**Dr. Hnin Khine** was awarded the Lewis M. Fraad award for excellence in resident teaching from the Department of Pediatrics in 2019

**Dr. Daniel Fein** was inducted into the Leo M. Davidoff Society for Outstanding Achievement in Medical Student Teaching at the Albert Einstein College of Medicine

**Children's Hospital at Montefiore  
Pediatric Emergency Medicine**

3415 Rochambeau Avenue

2nd Floor

Bronx, New York 10467
